## Bat World Sanctuary Bat Rehabilitation Workshop

*Bat World Sanctuary is pleased to offer our Bat Rehabilitation Workshop. Students learn the basic skills that are essential to successfully rehabilitating orphaned and injured bats and returning them to their natural habitat. Approved by AAVSB for 16 CE hours for veterinarians and LVTs*

|               |                  |
|---------------|------------------|
| <b>Dates:</b> | <b>Location:</b> |
|               |                  |

All students will receive a copy of Bat World Sanctuary’s Standards and Medical Management for Captive Insectivorous Bats manual, plus the companion video DVD. The non-refundable\* registration fee covers classroom instruction, the manual and DVDs, handouts, and lab materials.

Students must have completed the rabies pre-exposure vaccination series prior to participation in this class, and will be asked to sign a waiver of liability prior to handling live bats.

***\*In the event that a student cannot attend a scheduled class, arrangements may be made to transfer the registration to a future class session.***

To register, visit <https://batworld.org/national-workshops/>
